NeoGenomics is a leading oncology diagnostic laboratory leveraging our real-world data to help accelerate provider and patient access to life-extending therapies and clinical trials.

Real-World Data

- **Patient Demographics:** Unique Patient ID, Age, Gender, State, Three-Digit Zip Code
- **Test Information:** Test Name, Test Methodology, Test Order
- **Results:** Status (quantitative and qualitative), Co-occurring Mutations
- **Provider Connections:** Ordering and Treating Provider Name, NPI, Facility Name, Address, Zip Code and Account Type

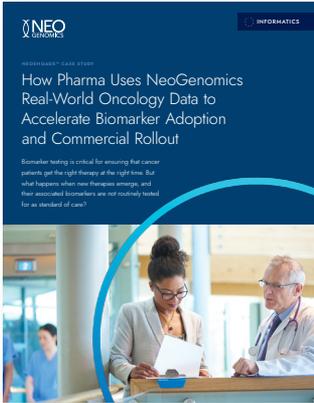

Products & Solutions

- **Diagnostic Alerts.** Leverage our real-time biomarker result data and oncology expertise to identify targeted provider populations at the right time with the right message.
- **Real-World Insights.** Deep dive into longitudinal, patient-level diagnostic results to get a granular view into the oncology testing landscape, ordering behavior, patterns and trends, and test utilization from a national view down to the provider level.
- **Clinical Trial Matching, Acceleration and Site Feasibility.** Run faster and smarter trials by identifying specific biomarker targets, site-ready physicians and patients who meet specific genomic inclusion criteria.
