

INTRODUCING

# Allevi Bioprinting Customized Solutions

We are the ABCS of Bioprinting!

Full service Bioprinting Solutions: Bioprinters | Biomaterials | Bioprinting Consultation

## Bioprinters are just the tip of the iceberg

### BIOPRINTERS

From the pioneers who introduced the first benchtop 3D bioprinter, Allevi's award-winning fleet of bioprinters are tried and tested by both academia and industry giants. Coupled with our tailor-made solutions, we get you up to speed on adopting bioprinting into your workflow!

### BIOMATERIALS

Rigorously tested for cell viability and print compatibility, our bioinks and cells offer top notch quality and consistency. With our approach to evidence-based biomaterial and bioink development, it's no wonder that leading researchers and industry giants alike rely on Allevi for their bioink needs. Choose from biomaterials as soft as brain, hard as bone, and every tissue in between.

### BIOPRINTING TRAINING

New to bioprinting? Or to a specific protocol? Save yourself money, time, and the frustration with expert led trainings and demos to get you comfortable and confident with novel bioprinting techniques.

### CONSULTATION SERVICE

Integrating bioprinting into your workflows is challenging without the proper support and guidance. Allevi's team of biomedical scientists and engineers works to provide you with streamlined bioprinting workflow custom designed and optimized for your research pipeline.

Trusted by Leading Institutions 

EAGER TO ADD BIOPRINTING TO YOUR WORKFLOW BUT NO IDEA WHERE TO START?
