

SomaScan[®] Panels

Big Insights. Targeted Data. Consistent Results.

With **9x more analytes than leading competitors**, our custom and carefully curated SomaScan Panels provide **comprehensive coverage** for new insights to disease biology and drug development.

Custom-pick your desired targets or take advantage of our disease-specific panels

Our unique custom panel offering

- Fully automated: assay is ready to run as soon as you select the targets
- You reserve the opportunity to request data for all 7,000 analytes later

Already using the full 7K SomaScan Assay?

Transition to SomaScan Panels with no additional validation.

“With SomaScan Panels, translational researchers can move seamlessly from large discovery projects to targeted validation tests”

Steve Williams, SomaLogic CMO

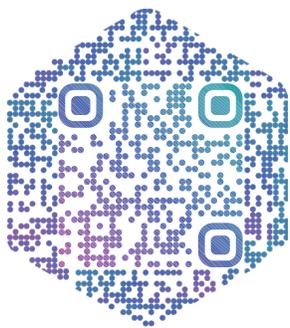

What you can achieve with the SomaScan Panels

FOR PHARMACEUTICAL R&D:

- Target Identification and Validation
- PK/PD
- Enrichment and Stratification for Clinical Trials

FOR ACADEMIC R&D:

- Disease Biology Modeling
- Disease Sub-Phenotyping
- Pathway Regulation Investigation

SomaLogic Authorized Site

Reagent Rental Program

somallogic

SomaLogic's Reagent Rental Program is a contractual agreement between SomaLogic and an Authorized Site, whereby the Authorized Site is loaned capital equipment to run the SomaScan® Assay and commits to buying a minimum annual volume of SomaScan Assay Kits in return.

- **Minimum:** 2,500 samples per annum (30 kits)
 - Reimburse SomaLogic the difference if a total of 10,000 samples are not run in a four year period
- **Term:** 4 years
- **Price:** \$550/sample
- **Ownership:** SomaLogic remains sole owner of Reagent Rental equipment. Authorized site must purchase appropriate service contract coverage and insure loaned equipment
- **Usage:** Reagent Rental equipment is for use with SomaScan Assay only

What's included in a SomaLogic Reagent Rental Program?

SomaLogic Custom Equipment Bundle

QTY	Item
1	Tecan Fluent 780
1	Agilent Microarray Scanner
1	SciGene Little Dipper Slide Washer*
1	Molecular Devices SpectraMax M2, M3 or M5 Fluorescence Plate Reader*
1	SomaLogic LabThread™ Custom Equipment Bundle

**Optional*

What the site must pay initially:

Product Code	Product Description
K0001	Site Installation IQ/OQ and Training Services: SomaLogic Equipment IQ/OQ + Assay Training (2 qualified users)
801-00001	Site Installation Reagents
K0021	Bioinformatics Services: DataDelve™ Normalization and QC Services, <15K samples
K0005	SomaLogic Equipment Support Services – Contract Year 1

What the site will pay for 7K assay kits:

Product Code	Product Description
900-000[20] or [21] [25] [26] [27]	Assay Kit (available after qualification, dependent on assay performed)

Annual support services (recurring obligations):

Product Code	Product Description
K0005	SomaLogic Equipment Support Services – starts Contract Year 2
K0006	Third-Party Equipment Support Services
K0021	Bioinformatics Services: DataDelve Normalization and QC Services, <15K samples
