

Next-Generation Protein Sequencing™ Enhancements Since 2022 Breakthrough

Science Publication

October 2022

QSI's first science publication using 3 N-terminal amino acid recognizers

Version 1 Kit

March 2023

QSI launches 5 N-terminal amino acid recognizers increasing coverage of the proteome

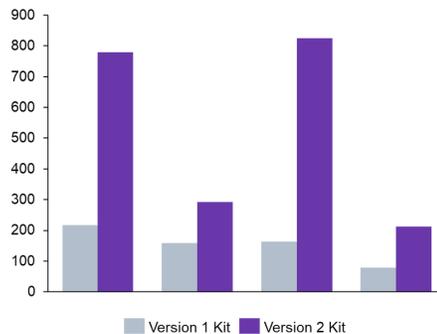

Version 2 Kit

February 2024

QSI launches additional recognizer along with kit and software improvements to enable deeper discoveries of proteins

Increase in Amino Acids Sequenced

Increase in Peptides Identified
